

- **Defect_ID:** BR-002
- **Description:** Admin Add User Allows Special Characters in Username Without Validation
- **Environment:**
 - Google Chrome Browser Version 143.0.7499.41,
 - macOS Tahoe Version 26.1
 - OrangeHRM: **OS 5.8**
- **Device:** MacBook Air Laptop
- **Steps:**
 1. Open Admin > User Management.
 2. Click on the "Add" button to open the "Add User" form.
 3. Enter a Username that has special characters (e.g., @@@@user).

- **Severity:** Medium
- **Priority:** P2
- **Evidence:**
 - Failure screenshot of TC_023:

The screenshot shows the 'Add User' form in the OrangeHRM application. It includes fields for Employee Name, Status, Username, and Password, each with validation feedback.

Field	Value	Validation Status
Employee Name*	yedghjb1 ru84 90jsnd	None
Status*	Enabled	None
Username*	@@@user	None
Password*	*****	Strong

- **Date Raised:** 26/12/2025
