2	Type and select employee from hints	Manda user	Employee name is selected	Employee name is selected	Pass	
3	Click view		Timesheet page opens for selected employee	Timesheet page opens for selected employee	Pass	

<b>Test case id:</b> TC-032 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify clicking View on a pending-action card opens the timesheet for that employee and period.				<b>Test case name:</b> Open timesheet from "Timesheets Pending Action" card <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:11pm		
<b>Pre-conditions:</b> Pending Action cards exist				<b>Post conditions:</b> Correct timesheet period opens.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Click view on an existing pending card		Timesheet page opens	Timesheet page opens	Pass	
2	Compare timesheet period with card period		Timesheet period matches the selected card	Timesheet period matches the selected card	Pass	

<b>Test case id:</b> TC-033 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify View is blocked when Employee Name is empty and validation appears.				<b>Test case name:</b> View with empty employee field <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:15pm		
<b>Pre-conditions:</b> Select Employee screen shown.				<b>Post conditions:</b> Timesheet does not open.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Leave Employee Name empty		Field remains empty	Field remains empty	Pass	
2	Click View		“Required” validation appears; no navigation	“Required” validation appears; no navigation	Pass	

<b>Test case id:</b> TC-034 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify entering a non-existing employee name cannot be selected and system prevents viewing.				<b>Test case name:</b> View with invalid employee name <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:18pm		
<b>Pre-conditions:</b> Select Employee screen shown.				<b>Post conditions:</b> No crash; clear behavior.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Click Employee Name field		Field active	Field active	Pass	
2	Type invalid name	inavlid	No matching hint	No matching hint	Pass	
3	Click View		shows clear validation	shows clear validation	Pass	

<b>Test case id:</b> TC-035 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify spaces in employee input do not break selection/view (system trims or handles properly).				<b>Test case name:</b> Employee name with leading/trailing spaces <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:20 pm		
<b>Pre-conditions:</b> Select Employee screen shown.				<b>Post conditions:</b> Timesheet opens correctly		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Type employee with spaces	Manda user	Input accepted	Input accepted	Pass	
2	Select correct hint	manda user	Correct employee selected	Correct employee selected	Pass	
3	Click View		Timesheet opens correctly	Timesheet opens correctly	Pass	

<b>Test case id:</b> TC-036 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify left arrow changes the timesheet period and refreshes the grid.				<b>Test case name:</b> Navigate to previous timesheet period (left arrow) <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:22 pm		
<b>Pre-conditions:</b> Timesheet page open				<b>Post conditions:</b> Period changes successfully.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Open an employee timesheet	Manda user	Timesheet page loads	Timesheet page loads	Pass	
2	Click left arrow near period		Period changes to previous week	Period changes to previous week	Pass	
3	Observe grid/status		No Records Found	No Records Found	Pass	

<b>Test case id:</b> TC-037 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify calendar/date picker changes the timesheet period and loads selected week.				<b>Test case name:</b> Select timesheet period using calendar <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:25 pm		
<b>Pre-conditions:</b> Timesheet page open of an existing user				<b>Post conditions:</b> Selected period loads.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Click calendar icon in period field	Manda user	Date picker opens	Date picker opens	Pass	
2	Select a different week	2022-12-12 to 2022-12-18	Period field updates	Period field updates	Pass	
3	Observe grid/status		No Records Found	No Records Found	Pass	

<b>Test case id:</b> TC-038 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify timesheet shows “No Records Found” when there are no entries for the selected period.				<b>Test case name:</b> No records state displayed correctly <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:28 pm		
<b>Pre-conditions:</b> Timesheet open; pick a period with no entries.				<b>Post conditions:</b> Empty-state shown.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Click calendar icon in period field	Manda user	Date picker opens	Date picker opens	Pass	
2	Change period	2022-12-12 to 2022-12-18	Period changes	Period changes	Pass	
3	Observe grid/status		No Records Found	No Records Found	Pass	

<b>Test case id:</b> TC-039 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify period field prevents invalid manual input OR keeps a valid date range .				<b>Test case name:</b> Manual typing into period field is blocked/validated <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:32 pm		
<b>Pre-conditions:</b> Timesheet open				<b>Post conditions:</b> Period remains valid.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Try typing random text	abcds	Invalid typing prevented OR ignored	ignored	Pass	
2	Click outside / check period		Period stays valid typing dissapers	Period stays valid typing dissapers	Pass	

<b>Test case id:</b> TC-040 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify rapid clicking on period arrows does not freeze or corrupt the page.				<b>Test case name:</b> Rapid period navigation <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:36 pm		
<b>Pre-conditions:</b> Timesheet open				<b>Post conditions:</b> Final period loads correctly.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Click left arrow 5–10 times quickly		Period updates without crashing	Period updates without crashing	Pass	
2	Stop and wait for load		Final period displays correctly	Final period displays correctly	Pass	
3	Observe UI		No stuck loading; grid remains usable	No stuck loading; grid remains usable	Pass	

<b>Test case id:</b> TC-041 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify timesheet Status (e.g., Submitted) is visible and readable.				<b>Test case name:</b> Status visibility on timesheet page <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:36 pm		
<b>Pre-conditions:</b> Timesheet open				<b>Post conditions:</b> Status displayed clearly.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Open employee timesheet	mando user	Timesheet page loads	Timesheet page loads	Pass	
2	Locate status area		Status displayed	Status displayed	Pass	

<b>Test case id:</b> TC-042 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify Edit works				<b>Test case name:</b> Edit button behavior based on status <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:42 pm		
<b>Pre-conditions:</b> Timesheet open				<b>Post conditions:</b> Clear behavior; no crash.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Open employee timesheet	manda user	Timesheet page loads	Timesheet page loads	Pass	
2	Click Edit		Edit form opens	Edit form opens	Pass	

<b>Test case id:</b> TC-043 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify refreshing the timesheet page does not cause errors and keeps correct context.				<b>Test case name:</b> Refresh keeps timesheet page stable <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:53 pm		
<b>Pre-conditions:</b> Timesheet open				<b>Post conditions:</b> Clear behavior; no crash.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Open employee timesheet	mando user	Timesheet page loads	Timesheet page loads	Pass	
2	Refresh browser	Ctrl/Cmd+R	Page reloads successfully	Page reloads successfully	Pass	
3	Confirm correct module/page		Still in Time/Timesheets with correct employee	Still in Time/Timesheets with correct employee	Pass	

<b>Test case id:</b> TC-044 <b>Software system:</b> OrangeHRM <b>Tester name:</b> Savan Dyari Ahmed <b>Short description:</b> Verify opening/closing sidebar does not hide or block important buttons (View/Edit/Period).				<b>Test case name:</b> Sidebar toggle does not overlap key actions <b>Test date:</b> 12/27/2025 <b>Test Time:</b> 2:53 pm		
<b>Pre-conditions:</b> Time page open.				<b>Post conditions:</b> Clear behavior; no crash.		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Toggle sidebar open/close		Sidebar expands/collapses smoothly	Sidebar expands/collapses smoothly	Pass	
2	Try interacting with period controls		Controls still clickable/visible	Controls still clickable/visible	Pass	
3	Try clicking Edit (if present)		Button remains accessible	Button remains accessible	Pass	

<p><b>Test case id:</b> TC-045</p> <p><b>Software system:</b> OrangeHRM</p> <p><b>Tester name:</b> Savan Dyari Ahmed</p> <p><b>Short description:</b> Verify timesheet layout remains readable and usable on smaller browser width (no overlap/cut text).</p>				<p><b>Test case name:</b> Timesheet page responsiveness on smaller window</p> <p><b>Test date:</b> 12/27/2025</p> <p><b>Test Time:</b> 2:53 pm</p>		
<p><b>Pre-conditions:</b> Time page open.</p>				<p><b>Post conditions:</b> Clear behavior; no crash.</p>		
Step s	Action	Test Data	Expected Response	Actual results	Test Result (Pass or Fail)	Comments
1	Reduce browser width	~50% screen	Layout adapts without overlapping elements	Layout adapts without overlapping elements	Pass	
2	Scroll and check period/status		Period and status are still readable	Period and status are still readable	Pass	
3	Use a control (arrow/calendar)		Works normally; no UI break	Works normally; no UI break	Pass
